

Evaluating and Comparing Contractors

YES	NO	
		Will the contractor provide references or photographs, as well as test results of before and after radon levels of past radon reduction work?
		Can the contractor explain what the work will involve, how long it will take to complete, and exactly how the radon reduction system will work?
		Does the contractor charge a fee for any diagnostic tests? Although many contractors give free estimates, they may charge for diagnostic tests. These tests help determine what type of radon reduction system should be used and in some cases are necessary, especially if the contractor is unfamiliar with the type of house structure or the anticipated degree of difficulty.
		Did the contractor inspect your home's structure before giving you an estimate?
		Did the contractor review the quality of your radon measurement results and determine if appropriate testing procedures were followed?
